MAINTENANCE

Watch Cleaning Service

Value **HKD\$960** / service

清洗服務

However sophisticated, a watch accumulates dirt over prolonged wear — unsightly, unhygienic, and capable of clogging components and impairing operation. Our ultrasonic cleaning removes surface residue, dirt and stains and prevents bacterial growth, leaving your watch cleaner, brighter and refreshed.

MAINTENANCE**Watch Repairing Service ***Value **HKD\$2,000+** / service

維修服務

The integrity of a watch's operation directly affects its market value, and accumulated component issues can cause irreversible damage to the movement. Our on-site, locally registered watchmakers with 30 years' experience safeguard every ZNAP member's watch and save costly repairs. For collection, succession or resale, your watch stays in optimal condition.

ANTI-COUNTERFEITING**Authentication & Certification Report**Value **HKD\$980** / report

鑒定及認證報告服務

Authenticity is the absolute precondition of value. As the world's first AI watch authentication institution, the W.A.V Center compares against a big-data library captured by industrial microscopes and precision instruments to identify the most minute differences between genuine and replica pieces, and issues a certification report.
